

STATEMENT UNDER PCT ARTICLE 19

Claims 1, 2, and 3 has been amended. Claim 1 fix the limits of the 'radon detector' to the 'alpha track detector' measuring the time integral concentration of radon. Claims 2 and 3 clear the context to be dependent upon amended claim 1.

The purpose of these amendments is to limit the scope and to clear the context of the claimed invention to expression of a 'radon detector' on the 'alpha track detector'. These amendments should have no effect on the description and drawings.
